CGPA: 8.6
- BSC - MPC's -AKNU 2021
CGPA: 8.4

LANGUAGES

- English (Fluent)
- Hindi (Basic)
- Telugu (Fluent)

PROFILE SUMMARY

Frontend Developer (React.js Specialist) with 2+ years of experience in building high-performance, scalable web, mobile applications using React.js, Redux, and modern JavaScript (ES6+). Strong expertise in RESTful API integration, responsive design (Bootstrap, Tailwind CSS, Material UI), and state management. Proven track record in optimizing UI performance, debugging, and collaborating in Agile teams using Git, Jira, and Postman. Passionate about clean code, reusable components, and continuous learning on new technologies.

WORK EXPERIENCE

POSGURU PRIVATE LIMITED OCT 2024 - APR 2025

React JS Developer

- Developed responsive UIs for cloud-based POS system using React.js, Redux, and Bootstrap, ensuring cross-device compatibility for 10K+ retail/restaurant users.
- Integrated RESTful APIs for order/inventory/customer modules, reducing data latency by 25% via pagination and caching strategies.
- Optimized performance: Cut page load time by 30% by implementing lazy loading + dynamic rendering for search results.
- Built Restaurant Panel dashboard (Chart JS/React/Redux/Material UI) with real-time order tracking and automated billing, improving operational speed by 20%.
- Developed interactive dashboard with React.js + Chart.js for real-time analytics in Restaurant Panel.
- Developed TillApp financial system (React/Redux) with transaction analytics, optimizing SQL queries to reduce report generation time by 40%.

ASU Technologies & Services Pvt Ltd APR 2023 - AUG 2024

Software Frontend UI Developer

- Built a responsive e-commerce app using React, JavaScript, and Material UI, designing reusable components and maintaining clean code standards for scalability.
- Integrated RESTful APIs with dynamic filtering, search, and pagination, and streamlined CRUD operations via modular service layers for efficient data handling.
- Implemented Auth0 authentication with role-based access control (RBAC), enhancing security and user session management.
- Optimized data workflows using SQL stored procedures and Python Pandas for backend processing, reporting, and performance.
- Collaborated in Agile sprints, managing tasks in JIRA and version control via Git, while ensuring cross-browser compatibility and on-time delivery.
